

## Embedded terminal for RICOH MFP with the Gespape solution

---

The « **eTerminal-Ricoh** » embedded terminal works with the RICOH MFPs and enables the communication between the MFP and **GESPAGE** server.

Accessible from the touch screen of the RICOH MFP, this software allows for access control, secured printing and user's identification by entering a code on the touch screen.

This « Embedded » terminal fully fits into the touch screen of the RICOH MFP.

This **eTerminal-Ricoh** software is compatible with all MFPs featuring at least the SDK/J10.

This improvement makes the Gespape solution more competitive. In addition, this solution is perfectly suitable to the ergonomics of the RICOH equipment.

### Scheme of a network configuration

## The embedded terminal benefits

- ✓ Personalized welcome to the identified user.
- ✓ User-friendly selection of the documents to print.
- ✓ Sending to **Gespage** server of the prints, copies and scans performed.
- ✓ Secure use of the RICOH MFP by Login, Login/Password, Code, Card (card reader in option).
- ✓ Function of scan to email of the user.
- ✓ Synchronization and management of the users, LDAP, AD directories or a CSV data base.
- ✓ Setting of access rights for the specific use to each user or user group.
- ✓ Management and configuration of the terminal from a user-friendly web interface.
