

Embedded terminal for SHARP MFP with the Gespape solution

The « eTerminal-Sharp » embedded terminal works with the SHARP Multifunctions and enables the communication between the MFP and the **GESPAGE** server.

Accessible from the touch screen of the SHARP MFP, this software allows for access control, secured printing and user's identification by entering a code on the touch screen.

This « Embedded » terminal fully fits into the touch screen of the SHARP Multifunctions.

This **eTerminal-SHARP** software is compatible with all the OSA (Open Systems Architecture) MFPs.

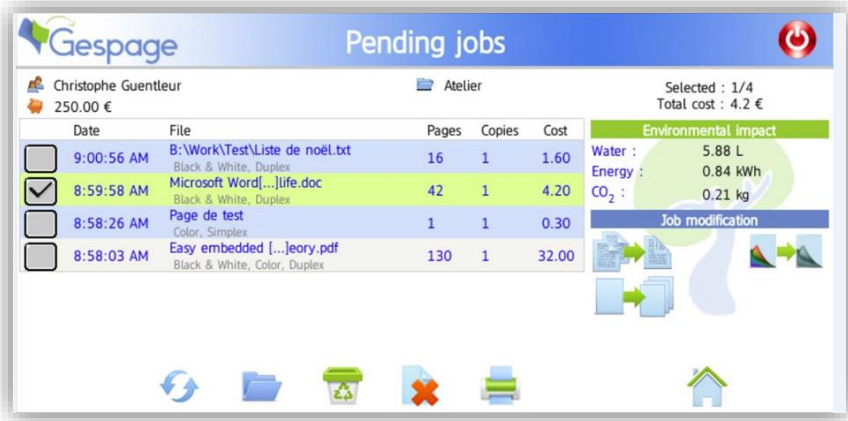

This improvement makes the **Gespape** solution more competitive. In addition, this solution is perfectly suitable to the ergonomics of the SHARP equipment.

Scheme of a network configuration

The embedded terminal benefits

- ✓ Personalized welcome to the identified user.
- ✓ User-friendly selection of the documents to print.
- ✓ Sending to **Gespage** server of prints, copies and scans performed.
- ✓ Secure use of the SHARP MFP by Login, Login/ Password, Code, Card (badge reader in option).
- ✓ Function of scan to email of the user.
- ✓ Synchronization and management of the users, LDAP, AD directories or a CSV data base.
- ✓ Setting of access rights for the specific use to each user or user group.
- ✓ Management and configuration of the terminal from a user-friendly web interface.

The added value of the MFP touch screen

- ✓ The intuitive user interface allows a quick start from the first use.
- ✓ Display of the user credit before and after the operation, as well as the tariffs of prints (A4, A3, B&W, Colour).
- ✓ The user may select one or several documents from the list in the print queue for release them, delete them or leave them in the queue.
- ✓ Copies, prints and scans are managed directly on a same interface.
- ✓ A quick identification thanks to the contactless badge reader (in option).

Specifications

- ✓ With the TCM3 option, compatibility with most RFID cards.
- ✓ Compatible with the Gespage 6.6.3 versions and higher.
- ✓ Available on the OSA (Open Systems Architecture equipment featuring at least the 3.5 version, fitted with a touch screen (MXAMX3 option is required).
