

Optional module for autonomous servers

Gespage-Remote, installed on remote servers, provides the autonomous functioning of Gespage solution on each of the sites and the consolidation of data on the Central Server

Key points

- Autonomous functioning of the remote sites in case of a network failure with the Central site.
- Customized access to a management Web interface for each server (taking into account the access rights).
- Consolidation of data on the Central server.

List of Printers/Copiers							
Server Name	Printer/Copier name	Comments	Connected terminal	Printer status	Printer alerts	External errors	Link
CENTRAL_SERVER_2012-R2	Wide Format Printer	Reprography Large Format Printer	cPAD_1	✘	🔊	🔊	🌐
CENTRAL_SERVER_2012-R2	Reception MFP	65 pages per minute MFP	eTerminal_1	✔			🌐
REMOTE_SERVER_w2008	Office Printer	USB Printer		✔			🌐
REMOTE_SERVER_LINUX	Marketing MFP	35 pages per minute MFP	eTerminal_2	⚠	🔊	✘	🌐
REMOTE_SERVER_LINUX	Administration Copier	Not connected Copier	cPAD_2	✔			🌐

- Compatible with Windows or Linux servers (heterogeneous sites).
- Feedback of counters (MPS) of all the sites.
- Synchronizing to a common directory (AD or LDAP) or the directories of each site.
- Edition of reports by site or consolidated from the interface of Gespage Central.
- Synchronizing of quotas on all the servers.
- Setting up of a common or distinct print policy on each server.
