

## Optional module of printing

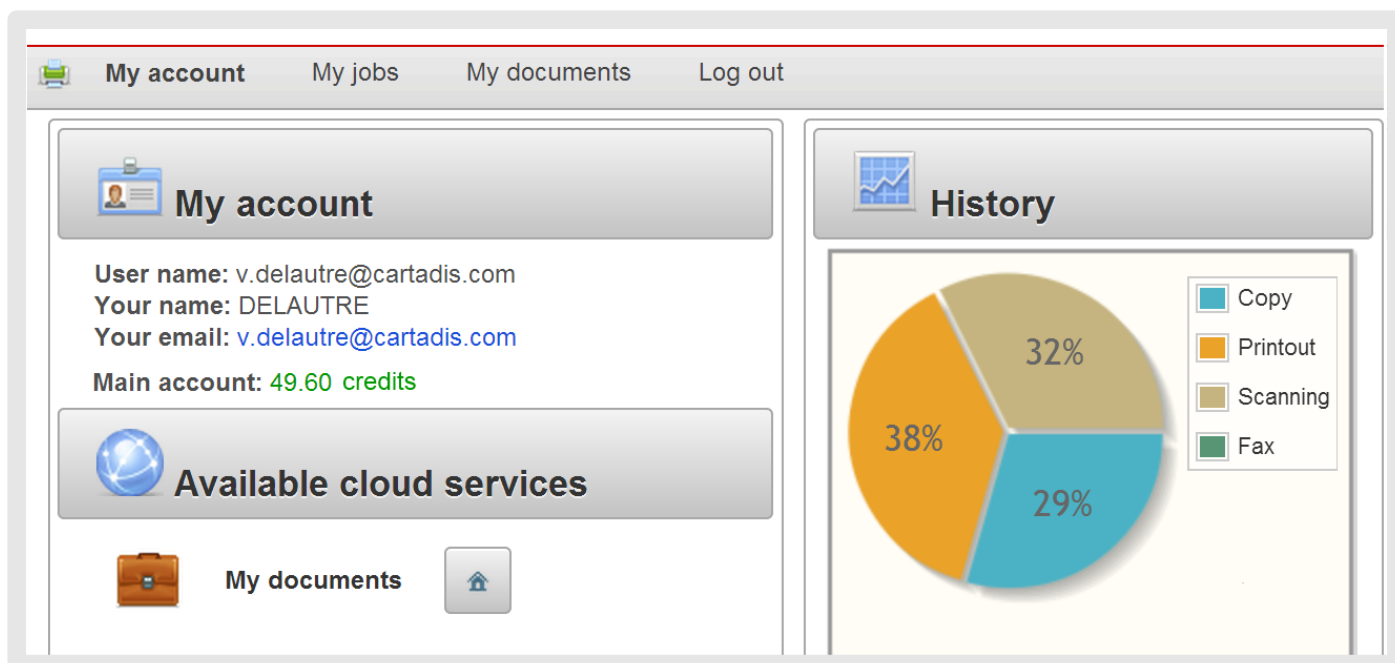

Gespage Mobile module is a service for sending documents to print from any connected equipment, PC, Smartphone, Tablet.

### Key points

- Printing from any connected terminal (Pc, smartphone, tablet ...).
- 3 ways of printing: From a web page - By email sending - Via Android and iOS applications (iPhone & iPad) for Smartphone and Tablet.
- No print driver installation and secured access to the service.
- A secured multilingual platform (https / SSL format) enables the user to authenticate and create his account.
- Printing of files (Pdf, Office, Open Office, Image...) and web pages.

The screenshot displays the user interface of the Gespage Mobile module. At the top, there are navigation tabs: "My account", "My jobs", "My documents", and "Log out". The "My account" tab is active, showing a user profile section with the following details:

- User name:** v.delautre@cartadis.com
- Your name:** DELAUTRE
- Your email:** v.delautre@cartadis.com
- Main account:** 49.60 credits

Below the account details is a section for "Available cloud services". At the bottom of the interface, there are icons for "My documents" and a home button.

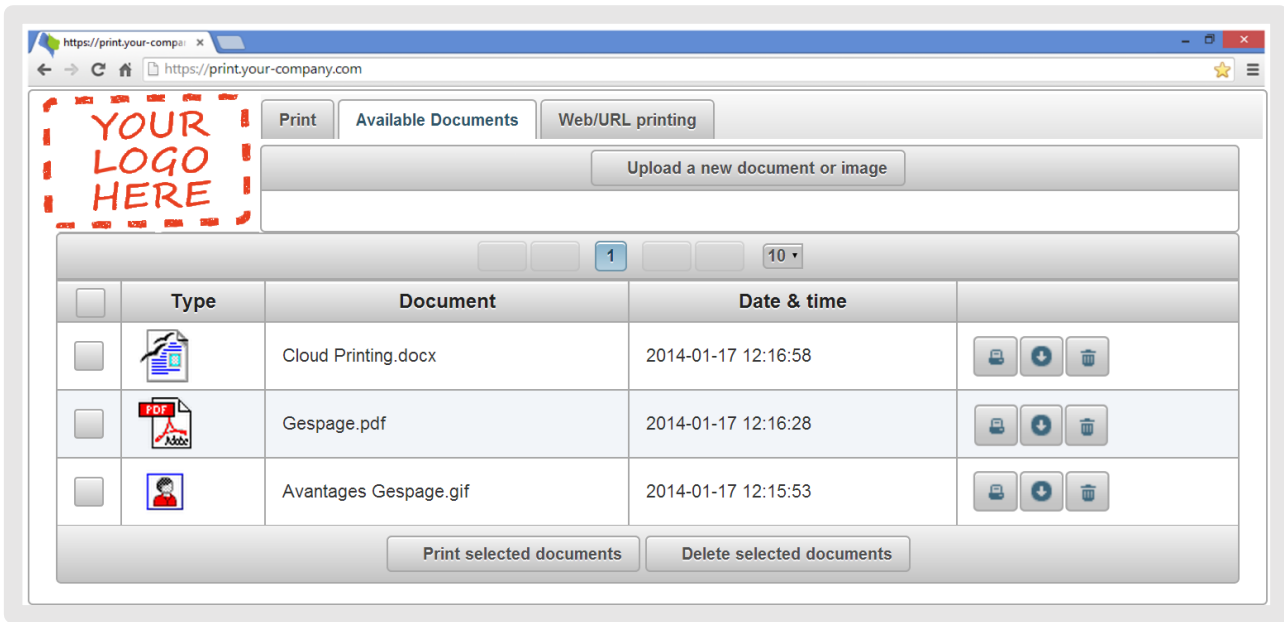

On the right side of the interface, there is a "History" section featuring a pie chart. The chart is divided into four segments representing different printing actions:

Category	Percentage
Copy	29%
Printout	38%
Scanning	32%
Fax	0%

## Functioning of the solution

Gespage Mobile Web interface may be customized with the colours, logos and messages of your structure.

The service is compatible with all printers featuring the PostScript language.

From his Smartphone or Tablet, via Gespage application, the user can:

- Check his account and historical statements (credits and transactions).
- Select his printer by QR Code.
- Print his images, documents, photos...
- Define his print settings (paper size, number of copies, duplex...).

The user can also send a document for printing as an attachment of an email to a dedicated address of the server.

Send	To...	print@your-company.com
	Cc...	
	Subject	
	Attached	Cloud Printing.docx (827 Ko)

The Web interface can also host a service for account reloading by credit card: Gespage Web Payment.
