

Gespage

Print Management Software

Gespage provides simple, smart, and centralized management of printers and multifunctions.

It controls costs, strengthens print security, enables mobility, and supports an eco-friendly approach.

Alongside its server capabilities, Gespage embeds applications on MFPs to deliver a seamless user experience and streamlined administration.

Key features

- Fast and Centralized Deployment:** Quick setup and seamless directory integration for unified print service management.
- Seamless user experience:** Intuitive interfaces for managing print jobs from MFPs, desktops, web, or mobile devices environments.
- Budget Control:** Accurate monitoring of costs and usage, flexible quotas, online/kiosk payments, and payback in under 6 months.
- Secure Access:** User access control, print rules, notifications, GDPR compliance, and flexible authentication options.
- eTerminals:** MFP-embedded solution that boosts security, streamlines management, and improves the user journey.
- Comprehensive Reporting:** Usable insights on usage and ecological impact, available on-demand or via automated delivery.
- Secure Printing:** Print jobs are released only after user authentication on the MFP, through Print2Me — Gespage's Pull Printing feature.
- Mobile Printing:** Secure printing from smartphones, web, or email, supporting remote work and BYOD environments. available on-demand or via automated delivery.
- Sustainable Printing:** Eco-responsible rules, CO₂ tracking, secure deletion, awareness, and alignment with CSR initiatives.

Gespage is an all-in-one solution that secures print jobs, simplifies scan workflows, lowers costs, and centralizes device management..

Thanks to its intuitive interface and centralized monitoring tools, organizations keep full control of their print environment, optimize resources, and boost productivity, while ensuring robust security across all document workflows.

Choosing Gespage means:

A comprehensive view of the print fleet

Real-time visualization of device status and usage provides insights into activity by department or user, enabling informed decision-making based on reliable data..

Simplified and secure printing

Users benefit from a seamless experience with secure authentication, automated print rules, and a clear interface that minimizes errors while protecting sensitive information.

Reduced environmental impact

Through optimized printing and greater user awareness, teams reduce waste, conserve energy, and lower CO₂ emissions — directly supporting the organization's sustainability objectives.

• Centralized Deployment & Administration

- **Rapid Setup:** Install the server within minutes and integrate smoothly into single-site or multi-site environments, with agent deployment through GPO or Microsoft Intune.
- **Live Supervision:** Monitor printer status, ongoing jobs, and detect issues in real time.
- **User Directory Synchronization:** Automatic provisioning and updates of user accounts.
- **Advanced Access Management:** Define rights and quotas, limit access by user profile, and apply customized print policies.

• Access Management & Print Policies

- **Access Control:** Secure, profile-based access to the Gespage administration console, with dedicated views for administrators, super-users, and end-users.
- **Smart Print Rules:** Flexible rule engine with predefined options (redirect, suggest, enforce) or customizable scripts, supporting cross-server and multi-system environments.
- **User Notifications:** Inform users of applied print policies via interactive pop-ups or automatic email messages.

The screenshot shows the 'GROUPE D'UTILISATEURS' configuration page. It includes the following fields and sections:

- Groupe d'utilisateurs:** A dropdown menu.
- Commentaire:** A text input field.
- Administrateur:** A checkbox.
- Rôles:** A dropdown menu with the following options:
 - Gestion d'imprimantes
 - Gestion d'utilisateur
 - Surveillance
 - Rapport
 - Configuration du serveur
 - Caisier
 - Caisier (Limité au débit)
 - Exécution des tâches
 - Edition des tâches
 - Gestion documents
- ACCÈS LIMITÉ À:** A section with two rows, each containing a dropdown menu for 'Groupe d'utilisateurs' and 'Groupe d'imprimantes'.

• Reinforced Security

- **Secure Access & Rights:** Total control and protection of user permissions and print activity.
- **GDPR Ready:** Strong network and print security with strict access control to ensure data protection compliance.
- **Encrypted Workflows:** End-to-end encryption securing every print and scan process.
- **Custom Watermarks:** Add personalized markings to documents to prevent misuse and strengthen document security.

• Smart Cost & Payment Management

- **Complete Visibility:** Track every print, copy, and scan by user, department, or project.
- **Quota Management:** Set per-user limits, differentiated by B/W or color, with cost allocation.
- **Web Payment Module:** Online account recharge via bank card (Worldline, PayPal) or through payment kiosks linked to Gespage.
- **Reprography Module:** User billing in copy shops and reprography centers.
- **Proven ROI:** Immediate savings, with full return on investment in less than 6 months.

Format	Ink	For feature	Cost/page	Discount per duplex printed sheet	By default
A3	Black & White	Copier & Printer	0.10	0.00	<input type="checkbox"/>
A3	Colour	Copier & Printer	0.30	0.00	<input type="checkbox"/>
A4	Black & White	Copier & Printer	0.20	0.00	<input type="checkbox"/>
A4	Colour	Copier & Printer	0.10	0.00	<input type="checkbox"/>

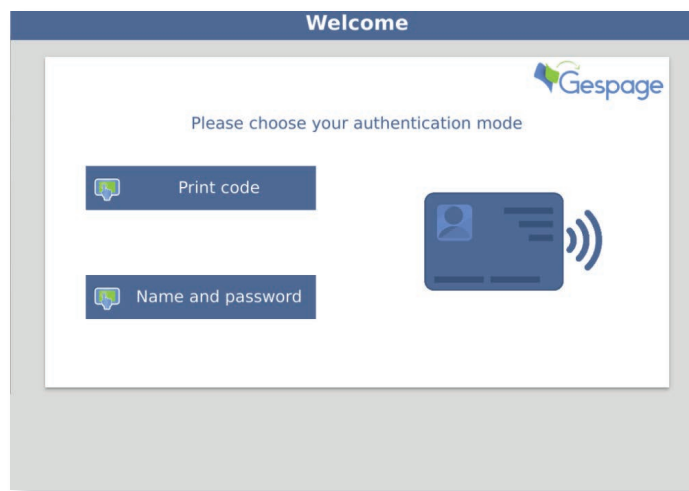

• Reports & Insights

- **Live Dashboard:** Real-time visibility of usage, anomaly detection, and ongoing monitoring.
- **Precise Meter Tracking:** Detailed data presented in exploitable tables and graphs.
- **In-Depth Analysis:** Breakdowns by machine, user, department, site, project, or client.
- **Green Indicators:** Measure savings and ecological footprint.
- **Flexible Reporting:** Export detailed reports (PDF/Excel/CSV) or schedule automatic email delivery.

Gespage's embedded terminal (eTerminal) is tailored for each MFP brand, transforming the native touchscreen into a smart, intuitive interface that improves productivity while securing both printing and scanning.

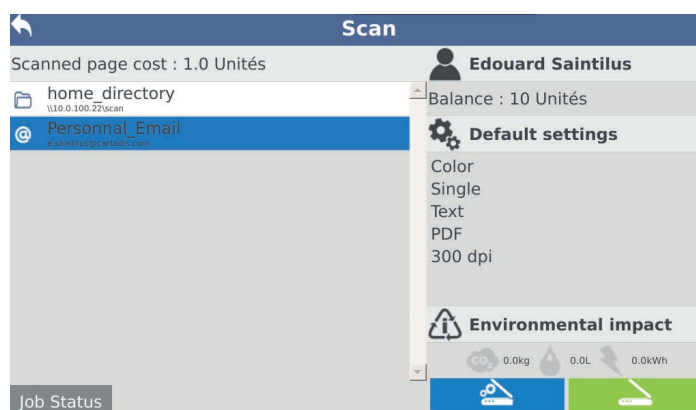

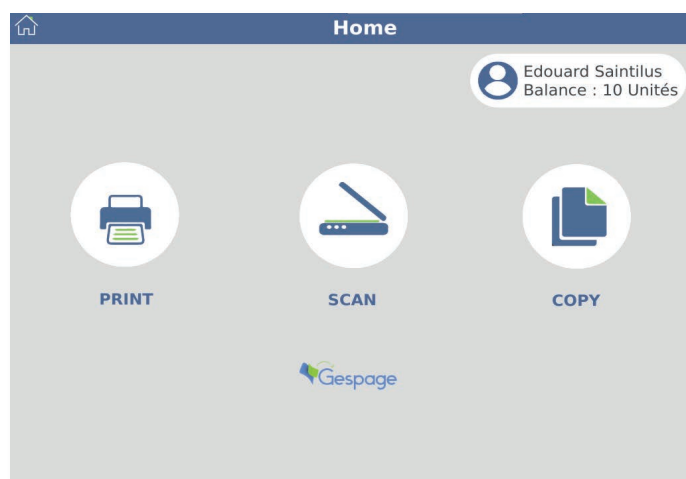

• Secure Printing on MFPs

- **Secure Authentication:** Users log in according to their rights (via RFID badge, credentials, or PIN code).
- **Usage Control:** Access to MFP functions is restricted according to user permissions.
- **Print2Me:** Print jobs are held until the user authenticates at an eTerminal-equipped MFP, guaranteeing document security and confidentiality.
- **Global Print2Me:** A secure printing experience extended seamlessly to multi-site and remote environments.

• Interface & Job Management

- **User-Friendly Interface:** Smooth, consistent experience across all MFPs, new or refurbished*.
- **Tailored Functions:** On-screen options personalized by user profile and print policies.
- **On-Screen Control:** Manage jobs directly from the MFP — select, adjust (B/W, duplex, copies), or delete.
- **Customizable interface* :** Personalize the home screen with your organization's logo.

• Advanced Scanning

- **Integrated Scanning Module*:** Unified and secure control of printing and scanning through the intuitive Gespage eTerminal interface.
- **Optimized Scan Workflow:** Choose fast or detailed scans with built-in OCR to searchable PDFs, including automatic removal of blank or unnecessary pages.
- **Flexible Destinations:** Deliver scanned documents to email, local/shared folders, or online drives such as Microsoft OneDrive for Business, SharePoint Online, or Google Drive.

* Subject to hardware compatibility. See our online brochures for details.

Gespage offers a user experience tailored to every printing scenario — whether from an MFP touchscreen, a desktop pop-up, a web interface, or a mobile application.

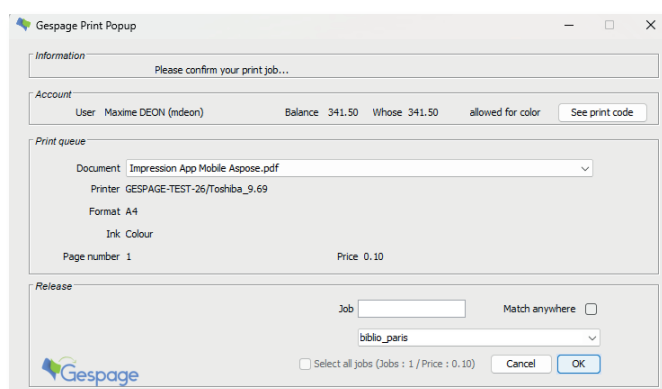

• On MFPs with eTerminal

- **Unified Screen Experience:** A single, familiar interface on every MFP for a smooth and intuitive user experience.
- **Manufacturer Partnerships:** Developed in collaboration with manufacturers to ensure seamless integration and reliability.

• On Workstations with the Pop-up

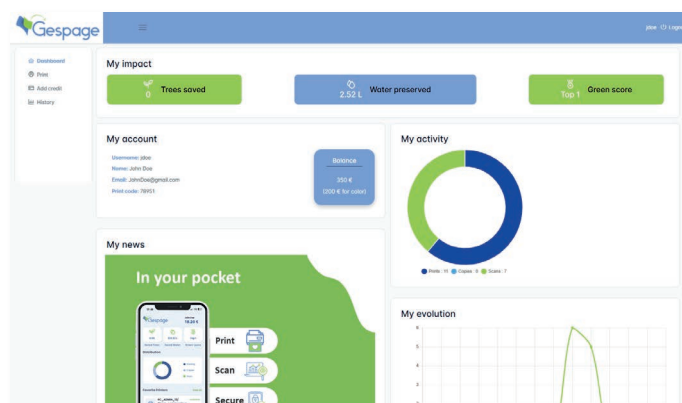

- **Interactive Guidance:** Real-time feedback on applied rules or automatic redirection to the best-suited device.
- **Eco-Responsible Alerts:** Targeted alerts to encourage more sustainable printing habits.
- **Billing Management:** Quick project code and billing selection for precise reporting, chargeback and accurate cost recovery.

• From a Web Browser or by Email

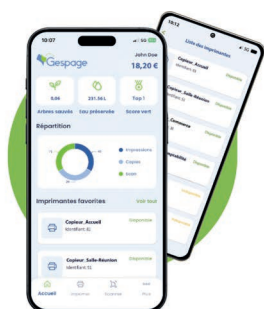

- **Mobile Printing:** Print securely on the go, in BYOD, hybrid or remote work environments via web or email.
- **User Web Interface:** All-in-one web portal to submit*, track, and pay for print jobs — while monitoring balance, history, and environmental impact.
- **Email Printing:** Simple email submission enables printing directly from any connected device.

*Submission of print files (PDF, Word, JPEG, etc.)

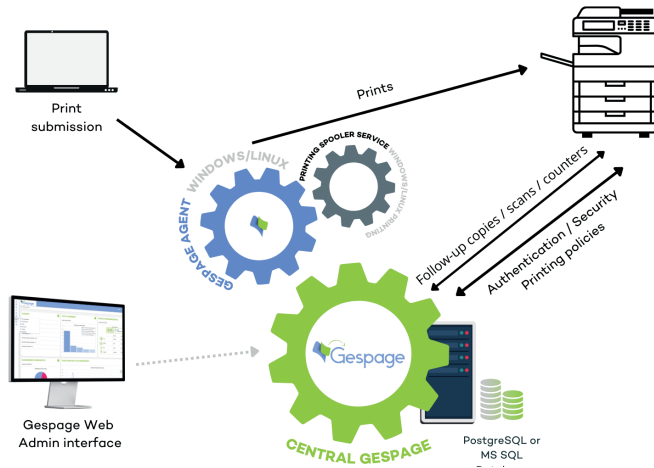

• Gespage Mobile App

- **Available on iOS & Android:** Print directly from smartphones and tablets.
- **Gespage in Your Pocket:** Stay connected wherever you are — authenticate at printers via QR code, check balances, track jobs, and print or scan on the go.
- **Choose and customize print settings** (format, color, duplex, etc.) right from your phone.

Architecture

Gespage adapts seamlessly to every setup:

- **Complex architectures**
- **Multi-server environments**
- **Multi-site setups:** geographic areas and remote locations
