

Gespage Stratus

Cloud-based print management made simple

Reduce your servers and simplify your IT!

Gespage Stratus is the turnkey private cloud version of Gespage.

It provides all the print management capabilities of Gespage, hosted and maintained by Cartadis, with the security, availability, and flexibility of the cloud.

Key Features

- Simplified Deployment:** Reduce your servers and streamline administration with seamless integration and a private cloud service, hosted and operated by Cartadis.
- Seamless user experience:** Intuitive interfaces for managing print jobs from MFPs, desktops, web, or mobile devices environments.
- Budget Control:** Accurate monitoring of costs and usage, flexible quotas, online/kiosk payments, and payback in under 6 months.
- Secure Access:** User access control, print rules, notifications, GDPR compliance, and flexible authentication options.
- eTerminals:** MFP-embedded solution that boosts security, streamlines management, and improves the user journey.
- Comprehensive Reporting:** Usable insights on usage and ecological impact, available on-demand or via automated delivery.
- Secure Printing:** Print jobs are released only after user authentication on the MFP, through Print2Me — Gespage's Pull Printing feature.
- Mobile Printing:** Secure printing from smartphones, web, or email, supporting remote work and BYOD environments. available on-demand or via automated delivery.
- Sustainable Printing:** Eco-responsible rules, CO₂ tracking, secure deletion, awareness, and alignment with CSR initiatives.

Gespage Stratus brings the power of Gespage in a turnkey cloud version that secures printing, streamlines scanning workflows, reduces costs, and centralizes fleet management.

With a seamless interface and real-time cloud monitoring, IT teams retain full control while benefiting from an optimized, resilient, and certified infrastructure for maximum security.

Choosing Gespage Stratus means:

Optimized print management that lightens IT

Real-time visualization of device status and usage provides insights into activity by department or user, enabling informed decision-making based on reliable data..

Secure printing through a certified cloud

A seamless experience enabled by strong authentication, automated rules, and a clear interface that reduces errors, protects data, and relies on a secure, certified cloud infrastructure.

Reducing environmental impact

With its streamlined IT infrastructure and eco-friendly print rules, Gespage Stratus reduces forgotten documents and raises team awareness of their energy and CO₂ footprint.

• Centralized Deployment & Administration

- **Simplified Deployment:** With hosting and maintenance managed by Cartadis, Gespage Stratus reduces IT workload, installs quickly, and integrates seamlessly into your existing hybrid or cloud systems.
- **Live Supervision:** Monitor printer status, ongoing jobs, and detect issues in real time.
- **User Directory Synchronization:** Automatic provisioning and updates of user accounts.
- **Centralized administration:** Simple configuration of print points and user settings.

• Access Management & Print Policies

- **Access:** Control access to the Gespage Stratus administration interface based on user roles (administrator view, management of super-users, and standard users).
- **Smart Print Rules:** Flexible rule engine with predefined options (redirect, suggest, enforce) or customizable scripts, supporting cross-server and multi-system environments.

The screenshot shows the 'USERS GROUP' configuration page in the Gespage Stratus administration interface. The page includes the following sections:

- USERS GROUP:** A section for configuring user groups, including a dropdown for 'Users group' (set to 'support'), a 'Comments' field, and an 'Administrator' checkbox.
- Roles:** A list of roles including Device management, User management, Supervision, Report, Server configuration, Cashier, View/Run tasks, Create/Edit tasks, and Document management.
- ACCESS LIMITED TO:** A section for configuring access limitations, including dropdowns for 'Users group' and 'Printer group'.
- Buttons:** 'Approve', 'Delete', and 'Cancel' buttons at the bottom.

• Reinforced Security

- **Total Trust:** Strict GDPR compliance, end-to-end encryption and access control, supported by ISO 27001, 27017, 27018 and 27701 certifications, which specifically concern the hosting infrastructure. This resilient cloud infrastructure guarantees 99.6% availability.
- **Secure Rights:** Comprehensive control and enhanced protection of permissions and print jobs.
- **Full Encryption:** Protection of print and scan flows through end-to-end encryption.
- **Custom Watermark:** Add specific markings to documents to enhance their security.

• Smart Cost & Payment Management

- **Complete Visibility:** Track every print, copy, and scan by user, department, or project.
- **Quota Management:** Definition of limits per user, differentiated B&W/ color, and finely configurable rates (including by user group).
- **Web Payment Module:** Online account recharge via bank card (Worldline, PayPal) or through payment kiosks connected to Gespage.
- **Reprography Module:** Billing mode for occasional users in reprography stores.

PRICE PROFILE

Price profile: Default

DEFAULT COST

Cost/page:

Discount per duplex printed sheet:

COST FOR STANDARD FORMATS

Format	Ink	For feature	Cost/page	Discount per duplex printed sheet	By default
A3	Black & White	Copier & Printer	0.10	0.00	☐
A3	Colour	Copier & Printer	0.30	0.00	☐
A4	Black & White	Copier & Printer	0.20	0.00	☐
A4	Colour	Copier & Printer	0.10	0.00	☐

• Sustainable Printing

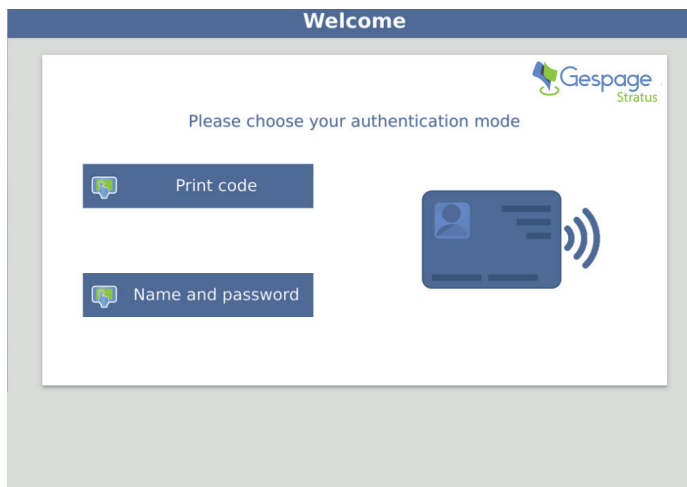

- **Intelligent Rules:** Automatic setting of B&W, duplex and print quotas.
- **Environmental indicators:** real-time monitoring of water, electricity, and CO₂.
- **Secure Deletion:** Automatic deletion of uncollected jobs through Print2Me.
- **Employee Engagement:** Encourage awareness of printing's environmental impact.
- **Aligned with CSR Goals:** Drive more sustainable and cost-effective print practices.

• Reports & Insights

- **Live Dashboard:** Real-time visibility of usage, anomaly detection, and ongoing monitoring.
- **Precise Meter Tracking:** Detailed data presented in exploitable tables and graphs.
- **In-Depth Analysis:** Breakdowns by machine, user, department, site, project, or client.
- **Green Indicators:** Measure savings and ecological footprint.
- **Flexible Reporting:** Export detailed reports (PDF/Excel/CSV) or schedule automatic email delivery.

Gespage's embedded terminal (eTerminal) is tailored for each MFP brand, transforming the native touchscreen into a smart, intuitive interface that improves productivity while securing both printing and scanning.

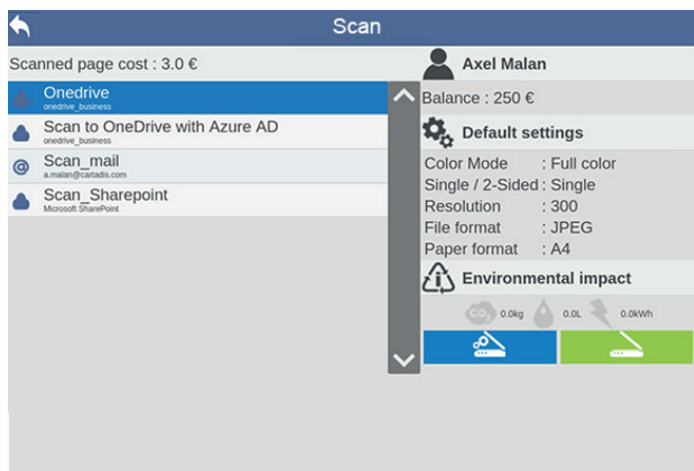

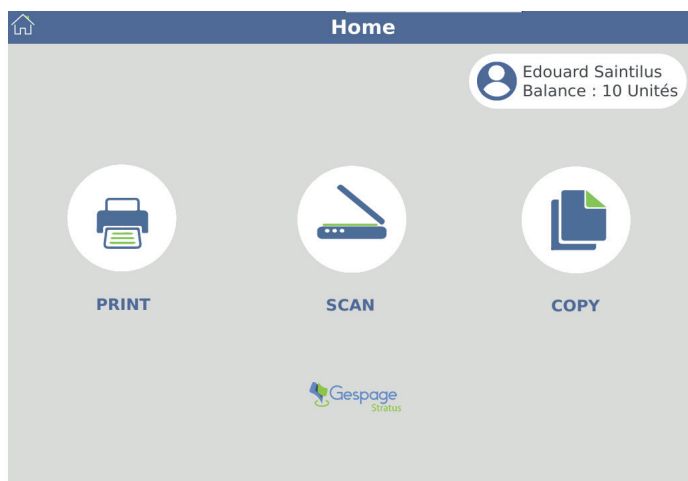

• Secure Printing on MFPs

- **Secure Authentication:** Users log in according to their rights (via RFID badge, credentials, or PIN code).
- **Usage Control:** Access to MFP functions is restricted according to user permissions.
- **Print2Me:** Print jobs are held until the user authenticates at an eTerminal-equipped MFP, guaranteeing document security and confidentiality.
- **Global Print2Me:** A secure printing experience extended seamlessly to multi-site and remote environments.

• Interface & Job Management

- **User-Friendly Interface:** Smooth, consistent experience across all MFPs, new or refurbished*.
- **Tailored Functions:** On-screen options personalized by user profile and print policies.
- **On-Screen Control:** Manage jobs directly from the MFP — select, adjust (B/W, duplex, copies), or delete.
- **Customizable interface* :** Personalize the home screen with your organization's logo.

• Advanced Scanning

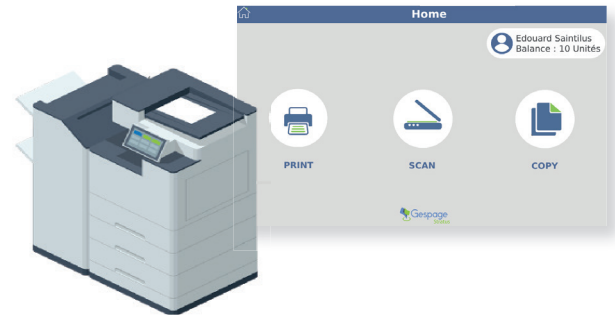

- **Integrated Scanning Module*:** Unified and secure control of printing and scanning through the intuitive Gespage eTerminal interface.
- **Optimized Scan Workflow:** Choose fast or detailed scans with built-in OCR to searchable PDFs, including automatic removal of blank or unnecessary pages.
- **Flexible Destinations:** Deliver scanned documents to email, local/shared folders, or online drives (Microsoft OneDrive for Business, SharePoint Online, or Google Drive).

* Subject to hardware compatibility. See our online brochures for details.

Gespage Stratus combines ease of use for users and agility for IT teams, delivering a seamless experience across MFP, web, or mobile — with flexible deployment options.

• On MFPs with eTerminal

- **Unified Screen Experience:** A single, familiar interface on every MFP for a smooth and intuitive user experience.
- **Manufacturer Partnerships:** Developed in collaboration with manufacturers to ensure seamless integration and reliability.

• Modular and resilient architecture

Gespage Stratus provides full flexibility: deploy locally on user workstations or centrally on a dedicated IT resource, depending on your needs.

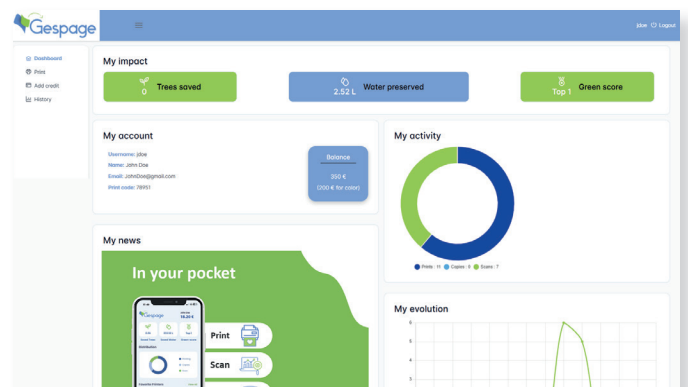

- **Local Agent Mode:** Printing is managed directly on user devices, without a central server. Gespage Agents can be deployed automatically, delivering a lightweight infrastructure that's fast to set up.
- **Local Server Mode:** Installing on a dedicated IT resource (server or virtual machine) centralizes print management and simplifies administration for greater control and reliability.

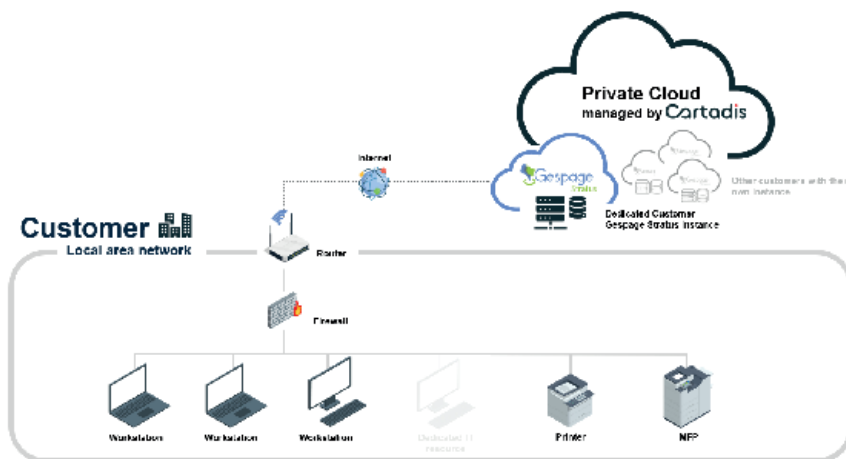

• Mobile printing & personal device usage

Compatible with a wide range of formats (PDF, Word, JPEG, etc.), Gespage offers all the necessary options to print on the move, whether you are on the move, in «Use of personal devices» mode or working from home.

- **Email Printing:** Send documents to a dedicated mobile print address to quickly print from any device.
- **User web interface:** Submission, tracking, payment of impressions, display of credit, history and environmental impact from a web browser.
- **Printing by the Gespage mobile app:** Available on iOS/Android, the app allows printing from smartphones, tablets and allows users to have Gespage in their pocket at all times!

Gespage Stratus adapts seamlessly to every setup:

- Hybrid and full cloud environments
- Complex architectures
- Multi-site setups

Also available in on-premises version!
