

Embedded Terminal for MFP HP

The « **eTerminal-HP** » embedded terminal works with the HP Multifunction Printers and enables the communication between the MFP and the **GESPAGE** server.

Accessible from the touch screen of the HP MFP, this software allows for access control, secured printing and user's identification by entering a code on the touch screen.

This « Embedded » terminal fully fits into the touch screen of the HP Multifunction printers.

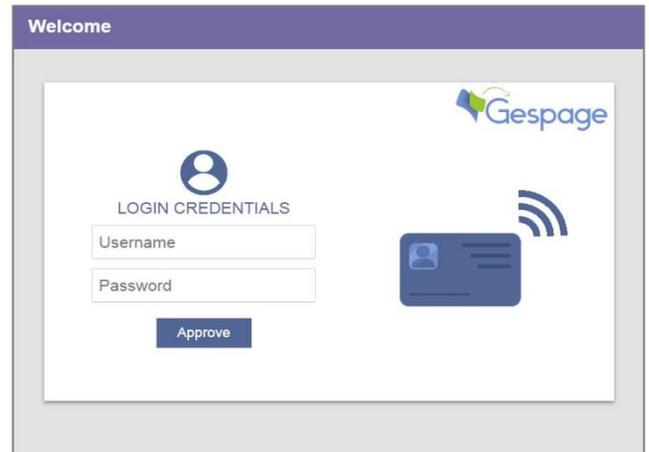

This **eTerminal-HP** software is compatible with all FutureSmart MFPs. This improvement makes the **Gespage** solution more competitive. In addition, this solution is perfectly suitable to the ergonomics of the HP equipment.

Scheme of the network configuration

The embedded terminal benefits

- ✓ Personalized welcome to the identified user.
- ✓ User-friendly selection of the documents to print.
- ✓ Sending to Gespage server of prints, copies and scans performed.
- ✓ Secure use of the HP MFP by Login, Login/Password, code, card (badge reader in option).
- ✓ Management and accounting of the user's scans to email and to a limited address book.
- ✓ Synchronization and management of the users, LDAP, AD directories or a CSV data base.
- ✓ Setting of access rights for the specific use to each user or user group.
- ✓ Management and configuration of the terminal from a user-friendly web interface.
- ✓ The "From:" field of the emails is automatically filled in with the user name.
- ✓ Modification of the job properties (force print in B&W or duplex, or modify the number of copies).
