Embedded Terminal for
MFP KYOCERA

The **« eTerminal-Kyocera »** embedded terminal works with the KYOCERA Multifunction Printers and enables the communication between the MFP and the **GESPAGE** server.

Accessible from the touch screen of the KYOCERA MFP, this software allows for access control, secured printing and user's identification by entering a code on the touch screen.

This « Embedded » terminal fully fits into the touch screen of the KYOCERA Multifunction Printers.
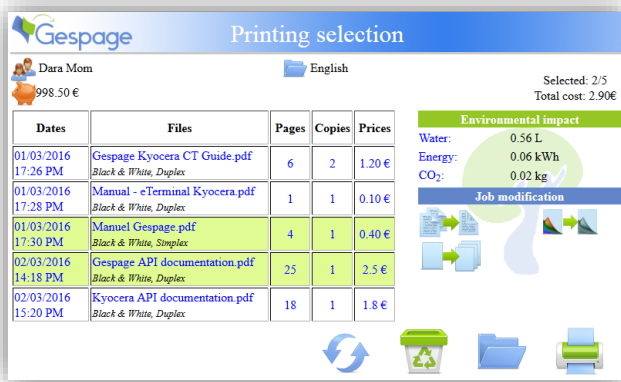

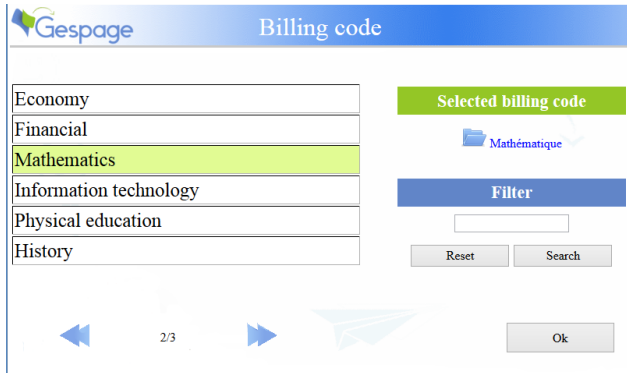

This **eTerminal-Kyocera** software is compatible with all MFPs featuring at least the HYPAS V.1-5-71. This improvement makes the **Gespage** solution more competitive. In addition, this solution is perfectly suitable to the ergonomics of the KYOCERA equipment.

Scheme of the network configuration

The embedded terminal benefits

- Personalized welcome to the identified user.
- User-friendly selection of the documents to print.
- Sending to **Gespage** server of prints, copies and scans performed.
- Secure use of the KYOCERA MFP by Login / Password, Print code and/or Card (badge reader in option).
- Management and accounting of the user's scans to email and to a limited address book.
- Synchronization and management of the users, LDAP, AD directories or a CSV data base.
- Setting of access rights for the specific use to each user or user group.
- Management and configuration of the terminal from a user-friendly web interface.
- Individual or overall job release.
- Modification of the job properties (print forcing to B&W, duplex or modification of the number of copies).

- The intuitive user interface allows a quick start from the first use.
- Display of the user credit before and after the operation, as well as the tariffs of copies, prints (A4, A3, B&W, Colour) and Scans.
- The user may select one or several documents from the list in the print queue for release them, delete them or leave them in the queue.
- Selecting a project code in the queue is a simple and user-friendly operation.
- Copies, prints and scans are managed directly on a same interface.
- A quick identification thanks to the contactless badge reader (in option).

Specifications

- With the TCM3/TCM4 option, compatibility with most RFID cards (requires a RFID reader Kyocera OEM licence).
- Compatible with the Gespage 7 versions and higher.
- Available on the KYOCERA equipment featuring at least the HYPAS V.1-5-71.
