

# Embedded terminal for MFP XEROX

The « **eTerminal-Xerox** » embedded terminal works with the XEROX Multifunction and enables the communication between the MFP and the **GESPAGE** server.

This embedded software enables secured printing thanks to user's identification by entering a code on the touchscreen or by using a card.

The **eTerminal-Xerox** makes using the MFP easier, more ergonomic and above all more productive in use. A simple click enables the user to interact with documents that he wishes to copy and print and this in compliance with confidentiality and GDPR regulations.

### **Embedded terminal benefits**

#### • Safety / Access management

- ✓ Safe use of XEROX MFP by login, login/password, code, card (badge reader in option).
- ✓ Possibility to set up access rights for each user or group of users.

#### Installation

✓ Simple deployment on a fleet of MFPs (automatic push of the eTerminal, configuration model).

#### • Intuitive interface

- ✓ Personalized welcome to the user.
- ✓ Display of the user credit before and after the operation as well as printing tariffs (A4, A3, BW, Color) and scan.

Pending print jobs
