Embedded terminal
for EPSON MFP
with the Gespage solution

The **eTerminal-Epson** embedded terminal works with the Epson Multifunctions and enables the communication between the MFP and the **Gespage** server.
Accessible from the touch screen of the Epson MFP, this software allows for access control, secured printing and user's identification by entering a code on the touch screen.
This embedded terminal fully fits into the touch screen of the Epson Multifunctions.
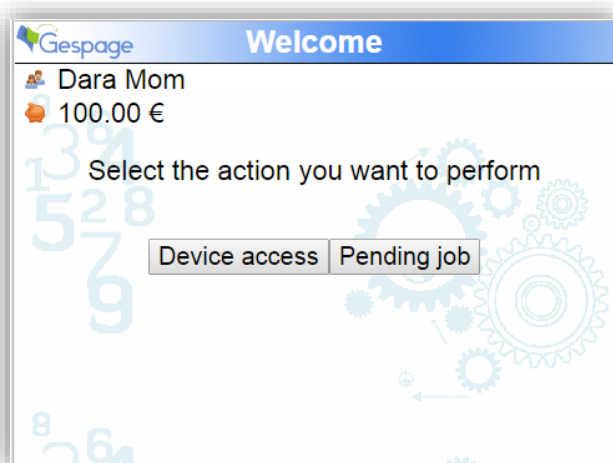

Scheme of a network configuration

The embedded terminal benefits

- ✓ Personalized welcome to the identified user.
- ✓ Selection of the documents to print.
- ✓ Accounting on **Gespage** server and payment of prints, copies, scans and prints from USB keys.
- ✓ Secure use of the Epson MFP by login, login/ password, code, card (badge reader in option).
- ✓ Management of scans to email, home directory or USB key.
- ✓ Synchronization and management of the users, LDAP, AD directories or a CSV data base.
- ✓ Setting of access rights for the specific use to each user or user group.
- ✓ Management and configuration of the terminal from a user-friendly web interface.
